Please introduce yourself in one paragraph and talk about your experience and skills and mention why do you want to be the club head and what are your objectives (President ONLY)

I am Aparajita Vaid, a compassionate, inquisitive, and determined UG2 student from Delhi with a mind of her own. Someone who likes to question and explore and strives to be unique. My major is Psychology and my minor is Digital Marketing. I excel in dance, writing and cooking. I have exquisite communication and organizational skills. In the year 2021-22, I was a member of the FLAME Dance Club content committee, a member of the FLAME Cultural Committee, and a volunteer in FLAME Kurukshetra PR as well as the cultural committee. This year I have been selected as a peer mentor, peer tutor, FLAME Dance Club content head and FLAME On Board treasurer. Food is something that brings everyone together and doesn't discriminate. Because even if you do not excel at cooking, you can always love food! It is an important part of our culture. Thus, I wanted to start a cooking and food-related club at FLAME to create a space where people can enjoy food together. This club would also aim to impart basic cooking skills to people which is integral to leading an independent life. I want to be the club head as

during the lockdown, I found a safe space in cooking. It was a stress buster for me as well as a way to bond with my family. Hence, now I aim to use cooking and food to bond with my FLAME family. Along with having great cooking, communication and organizational skills, I have exceptional leadership skills which make me fit to be the club head.

Club Objectives

- **Objective 1:** To provide a platform for social and cultural engagement at FLAME by exploring foods and cooking
- **Objective 2:** To promote cooking for both practical and recreational purposes within and beyond the college campus
- **Objective 3:** To create a community that comes together over similar tastes in food and recreational games

I think these aims will have a positive impact on society because they promote crucial skills such as self-sustenance and cultural understanding through a basic human need: food.

These skills will lead to independent and tolerant individuals and societies with healthier living standards.
