## **What is a Club?**

The clubs at FLAME University are initiated, designed and managed by students. The Student Activity and Affairs Committee monitors these clubs and provides guidance and logistical support whenever necessary. The clubs are “student groups” established to promote and develop the knowledge, interest and skills of members in and through co-curricular activities.

## **Purpose**

The Student Club must design and implement programs, events, and activities which support and enrich the goals of FLAME University's educational mission. To ensure a club is successfully operated, FLAME University encourages the clubs to recruit volunteers, designate roles and responsibilities and offer clarity to members on the relevant positions.

Involvement in clubs presents students with the opportunity to broaden their learning, obtain leadership and interpersonal skills, and develop a commitment to service.

The Clubs are expected to abide by the policies, rules and regulations of FLAME University.

The Student Activity and Affairs Committee is the primary lead in the administration of the Clubs.

#### **Introduction (President)**

My name is Lekha Donur, and I am a third year student at FLAME. One of my first memories of dancing is when I was 5 years old, and my family sent me to my first karate class. Instead of following the instructor along with all the other students, I decided to start dancing and soon enough everyone in the room was just staring at me! Ever since then, dancing has always been my happy place, my favorite thing to do! I always find myself imagining different steps I could do whenever I'm listening to a song. I wouldn't call myself the best dancer, but I'm in love with dancing and the rush it gives me everytime I perform, whether in a closed room or in front of a full room of people! The feeling is indescribable really, and I know I will never stop dancing. From dancing at weddings, dancing

with my friends, or dancing competitively, every experience holds a special place in my heart. My journey with dancing took a big turn when I joined FLAME, I had the opportunity to experience so much, and it changed me and made me a more confident dancer. From being part of ISME's annual fest to inter house competitions and even running for Dance President itself, every opportunity cemented my passion for dance.

I am beyond excited and grateful for getting the opportunity to be the President of the Dance Club. I aim to live up to what the prior President has done with the club as well as expand the club to the best of my ability! I am looking forward to this year, working and collaborating with new people, creating and organizing new events, and most importantly, making the dance club a space where any dancer at FLAME can come and dance their heart out!

## Objectives

- To strive towards conducting dance activities, meetings, and events in a socially distant manner using online modes. For example, having meetings online, creating and editing dance videos online.
- To work towards inculcating a sense of community among club members and strengthen the team spirit.
- To facilitate an environment of peer learning and growth through inter-dependence.
- To get some professional who can work on the Dance Team, so that they get better training and good exposure.
- Continue to build on the dance clubs instagram and website as well as encouraging and showcasing student talent through these channels.

- Work towards organising events and activities wherein the club will collaborate with other cultural clubs such as dance and theatre. For example, the dance club can collaborate with the music club to have a musical night.
- Be a part of each of the opening ceremonies for the different Sport leagues.
- To try to conduct more workshops of different styles and forms. Additionally, will work towards conducting online dance workshops until physical workshops can be possible.
- Create a dance team from the members of the dance club, who will represent FLAME in various competitions and fests.
- To invite professionals who can train students in different dance styles so as to allow the students to become more versatile and learn new choreographies. Will work towards conducting online workshops if face to face workshops are not possible.
- To work towards having regular dance club meetings and dance sessions to improve students' form and fitness.

Our objective and aim for the dance club this year is primarily to build a community sense combined with establishing regularity with regard to meetings, activities, and any other sessions related to the club. We want to encourage participation and promote students to showcase their talents. We aim to continue and work towards having socially distant and safe events with respect to the club.

We want to work towards spreading the talent of the FLAME Dance community and enhancing the structure of the Club to meet various goals. ### **Article VII: Club Plan for the Academic year 2019-20**

The month wise plan for the Academic year 2019-20 is given below:

#### **1. September:**

**Activity:** Ice Breaking Session + Introductory Session (Familiarising students with online sessions)

**Aim:** The ice-breaker event will help the first year students familiarize themselves not only with the other members of the club but also open up and get comfortable in this new space and familiarize themselves with the new online channel of conducting meetings. The introductory session conducted along with this would give the students a fair idea about the entirety of the dance club and its functions. We plan to have multiple icebreaker sessions and activities in the initial months of college. The first event is aimed towards having the students introduce themselves and get to know about each other and their interests. We want to develop a sense of comfort among the students.

**Description:** In the first icebreaker event, which will take place through a zoom meeting, students will start off by introducing themselves and talking about their favorite dance styles and performances. Students can also discuss and share their favorite artists and inspirations with regard to dance. Along with this, an introductory session about the dance club, its goals, aims and responsibilities will take place. Students will be informed about the structure of the club, the sub committees, future activities that have been planned to take place. We also want to hear about students' ideas with respect to the club.

**Learnings and Development:** This session will allow the first year students to meet the members of the dance club, and gain an understanding of the objectives of the club and how they can be a part of the club. It will allow the executive committee to understand what the students want out of the club, and can inculcate any suggestions given by them.

## **2. October:**

**Activity:** First online workshop + Online dance video

**Aim:** Once students have been introduced and inculcated into the club, it is important that the dance club conducts online activities and events so that students can be a part of the club, and at the same time allows the club to plan and organise activities online, as that will be the safest mode during this time.

We plan to conduct an online bollywood workshop for all students interested. Starting off the year by having an energetic bollywood dance session with the students would encourage a lot of participation, and would allow the students to have fun and learn new movements at the same time! It would also be a new experience for everyone to be a part of an online workshop.

We also plan to make a dance video with all interested students showcasing a particular style of dance ( after our Bollywood workshop, we could have a Bollywood dance video showcasing our learnings from the workshop).

**Description:** We will contact professionals and conduct a bollywood workshop online, and encourage all interested students to participate. In the dance video, we will finalise a theme and song for the video. We will coordinate with all the interested students and ask each student to submit a clip of them dancing to the particular song/dance style. These videos will then be edited together by the dance club, and will be uploaded on our website and instagram page.

**Learnings and Development:** The bollywood workshop will allow the dancers to learn new moves and will allow the first years to develop a sense

of comfort with respect to being a part of the club. The dance video will allow the students to showcase their talent and encourage student collaboration and participation.

#### **4. November:**

**Activity:** Orientation + Diwali Performance

**Aim:** Given that the tentative opening for college is scheduled to be in late October, the dance club will try to organize its first physical orientation meeting in November, so that the freshmen can get to know about the club. A little icebreaker activity can be organized to help them ease up. A dance video/performance will be organized by the club in order to celebrate Diwali with all social distancing rules in mind.

**Description:** For the physical orientation, everyone will be asked to stand in a circle and then every person can take turns in grooving to fun music. As one steps out of the circle, they throw another in and this continues till everyone has jumped in already. The Diwali performance will be bollywood-themed, with festive clothing and can be incorporated into a larger Diwali celebration, if any, at the college.

**Learning and development:** The main learning from this month would be to get everyone involved in the various club events and help them open up and find a comfortable space within the dance club's community. It would also help the core committee members identify the various strengths of the upcoming batches.

#### **5. December:**

**Activity:** 2<sup>nd</sup> online Workshop Preparing for the Leagues

**Aim:** We wish to conduct a classical dance workshop, either on Bharatanatyam or Kathak. All students trained in classical dance as well as those who are interested in these dance forms will have a chance to learn from a professional and learn more about classical dance. Students can expand and be aware of their movements and body language with respect to dance. This will help us practice and learn different styles. We will also start to plan dance performances for the sports events if they will take place depending on the situation, as that will help in club collaboration, and allowing students to be a part of different events on campus through dance.

**Description:** We will contact professionals that would be interested in conducting a dance workshop. Based on the situation in December, the workshop will either be online or on campus. Additionally, if sports leagues begin in December, we will start planning dance performances for the opening ceremony of these sports leagues that will take place.

**Learnings and Development:** The workshop will help students explore and devolve deeper into the respective dance form. The learnings from the workshop can also help in college fests and competitions that FLAME students partake in. The opening ceremony performances will increase the enthusiasm of the FLAME community by bringing more energy in the atmosphere and crowd.

**6. January:**

**Activity:** Inter House competition + Dance session for Professors and Staff

**Aim:** The interhouse dance competition aims at igniting a competitive spirit while also paving the way for house members to work together towards the victory of their respective house. The dance session for professors and staff is meant to act as a stress-buster and also increase the involvement of the FLAME Dance Club with faculty.

**Description:** The interhouse dance competition will be held with a standardized set of rules and a given theme that will be informed to each house captain in due time. The dance sessions with faculty will be held with interested student participants. Fun bollywood dance routines and activities that can help shake up the routine will be conducted by the core committee members.

**Learnings and Developments:** The interhouse dance competition will infuse team spirit and also the power of collaboration between the students. Given its competitive nature, it also promotes discipline and perseverance. The dance session for faculty would help break their routines while having some fun, and also incorporate a better stage of familiarity between the club and the staff.

## **7. February:**

**Activity:** Collaboration + Kurukshetra Team Practice

**Aim:** We wish to conduct a hip hop dance workshop. This will allow students to expand on their dance forms and learn new movements and choreographies. Additionally, we will start making the team for Kurukshetra

and start practicing for the dance performance along with opening and closing ceremony performances.

**Description:** We will be contacting professional dancers to come to FLAME and conduct a hip hop dance workshop. We will start forming the Kurukshetra dance team and begin practice for our annual college fest. We can use the learnings from the all previous workshop and inculcate these learnings into our dance performances to help improve our level of dancing and versatility for Kurukshetra.

**Learnings and Development:** The dance workshop will allow the dancers to connect with their inner performers.. Preparing for Kurukshetra will help us gain an upper hand and perform to the best of our capabilities.

**March:**

**Activity:** FLAME Fest

**Aim:** FLAME fest would provide a great opportunity for dancers to channel their inner enthusiasm and put in collective effort. It aims at celebrating dance and coming with up unique ideas for a performance.

**Description:** A dance event would be conducted as one of the events of Flame Fest. The teams will be intimated about the theme and rules of the competition.

**Learning and development:** FLAME fest would provide an opportunity for students to learn new styles while working in a team. It also provides the opportunity to choreograph and make the best out of a diverse team.

## **9. April:**

**Activity:** Dance Battle

**Aim:** To organise a fun dance battle for all batches as a stress buster during exam season and mark a fun end to the year.

**Description:** This dance battle will be between each batch, and is meant to be an on the spot dance battle. Students will take turns dancing from each batch on the same song.

**Learnings and Development:** This will allow the dancers to learn new moves and develop spontaneity with respect to dance. It will allow us to connect with our inner dancers and grow as dancers. Students will learn to become more confident dancers.

**Ideas to collaborate with/ contribute to other clubs, activities, workshops and fests on and off FLAME University campus:**

Our plan is to collaborate with different clubs and have crossover events on campus to encourage students from different clubs to come together and create something new. For example, we plan to collaborate with the music club to plan a musical on campus, and also want to collaborate with other clubs such as the theatre club, fashion club, photography club, etc.

Moreover, every club at FLAME will be in touch with the dance club so as to have a dance performance for every important event being celebrated at FLAME. Example: the sports club will collaborate with the dance club when their respective Sport League will be taking place, the dance club will organise a dance performance during the opening ceremony.

Collaborate with professionals towards conducting online workshops and sessions so students can learn new dance forms and styles as well as build and improve on known dance forms.

### **Article VIII: FLAME Support**

We would like to ask the support of FLAME University for getting a professional choreographer who can work on the Dance Team, so that they get better training and good exposure. This will boost the team confidence in various Inter-College fests and would even help us bring home more Trophies. Along with that, we would like to request for a proper Dance Studio, a space where we can practice regularly. We also request to fit mirrors in the Dance room so the dancers can look at themselves and work towards achieving perfection and coordination in their movements.

Would like FLame support in conducting on campus activities and events, including online and in person workshops where professional dancers will visit our campus to teach students different dance styles (In person sessions will only be planned and conducted once approval is given by the Student Activity and Affairs Committee). We would like FLAME's support in hiring in getting a professional that can work with the dance team and train them for various fests and competitions that FLAME will partake in. This will allow us to improve our versatility with respect to dance, and improve on our level of dancing. We would

also like FLAME's support for the dance team, all competitions and the events with respect to FLAME's resources, etc.
