I'm Aditya Kajrolkar currently in UG 2, with a marketing major and psychology minor. I've a long history with debating, and this history continues to the present and shall continue in the future. I've taken part in many MUN's and debate competitions and won in most. I saw a need for a proper stage to project one's opinions in Flame University and hence took up the initiative to start this club. A stage where every opinion is challenged and every mind provoked, a stage where the intellectual flow from academics continues. I want to be the club head as I want to invoke this craze for knowledge and information in each and everyone. To not rest until the truth is found, and to make our college have an even more inbound intellectual flow.

- Improve public speaking, researching, and basic debating skills.
- Giving students the platform to convey their thoughts and ideas.
- Creating a conversational environment built on intellectual banter.

I think these aims will have a positive impact on society because it will encourage people to voice their opinions and inculcate individual thought.

Skills & Experience

Please give details below of your skills & experience and indicate why you wish to be the President of the Club. (No more than 200 words.)

I've had experience in public speaking and debating from the age of 10. I was a part of the Institute of Psychological Health and worked with them through events and workshops. I've participated and won in many intra-school debates and also some inter-school MUN's. Researching and debating is a full time hobby. I would like to connect and interact with each student at Flame University who shares this hunger for knowledge and discussions, and would also like to awaken this hunger in many more students. I would wish that the college experience of the students at Flame University would not be an echo chamber where they are living in a bubble without having their opinions challenged. Lastly, I would like to form and head this club so that the intellectual flow of the college doesn't stop at academics and continues further, helping the college and the students alike.

**Please note that this nomination will be invalid
unless this form has been fully completed**
