Presidential Statement:

My name is Mrinanka Sengupta Das and I am a third-year student majoring in Entrepreneurship and minoring in Psychology. Art means everything to me. I cannot fathom a life without colors or even paint. My journey in art begins with a 'toddler me' filling my sketchbooks with triangle torsoed ladies which grew with me. From my fashion designer phase to my tomboy-goth phase, art has been there throughout. It has been a part of my life in the highs and the lows, and today, art has become a part of who I am, my identity. Art is a lot more than painting and sketching, Art to me is creation. As the President of the Art Club, I want to introduce more people to the joy creation brings. My goal for this academic year is to make sure nobody will ask where the Painting Studio is by the end of my term. I want Art to touch the lives of every single student in its own way, either through the drawing sessions we have or through the various collaborations we plan on having. The main objective of the art club is to create a space for all members to express themselves creatively and challenge their boundaries. We encourage everyone with an open heart! .

Objectives:

1. To promote, and encourage students to immerse themselves into different mediums of art.
2. To challenge members to improve upon their existing skills and for those who are fairly new to artistry to further explore art.
3. Conduct a new series of events each month.
4. To create a safe space for members to express themselves creatively.
5. To facilitate discussion, and dialogue in a warm, friendly, and open atmosphere where individuals feel free to speak their personal views on works of their choice.

Closing Statement: We are a group of people with a creative mindset who aim to create a space of positivity, imagination, creativity, and exploration.
