

FLAME Astronomy Club Annual Report

Academic Year 2022-23

Meet the Team

The Executive Committee of the Astronomy Club worked hard throughout the year, coming back from the hybrid setting to a completely offline one, to conduct fun activities for the students of FLAME, which would simultaneously help expand the audience's astronomical knowledge. While it was a different time, getting used to coming back to normal, the committee organized events, to make sure that people knew that our club is functioning well and fine.

The Astronomy Club Executive Committee 2022-23

President – Alishka Shah (UG2)

Vice President – Vibhav Kaloti (UG3)

Secretary – Neha Arora (UG2)

Treasurer – Neha Grandhala (UG2)

Apart from our dedicated EC, our committee members worked extremely hard to organize events and convert them from paper to reality. We believe that these contributions should not go unrecognized, and so we would like to mention their names here, too, as they worked as much as if not more than the EC members at times.

The Astronomy Club Sub Committee 2021-22

Design Head – Vidhi Agarwal (UG2)

Advisor – Ishaan Sharda (UG2)

Content Team – Vrinda Mandovra (UG1)

Logistics Head – Sanika Yelve (UG2)

Logistics Team – Kalash Shah (UG1)

Logistics Team – Utkarsh Sharma (UG2)

Activities Conducted

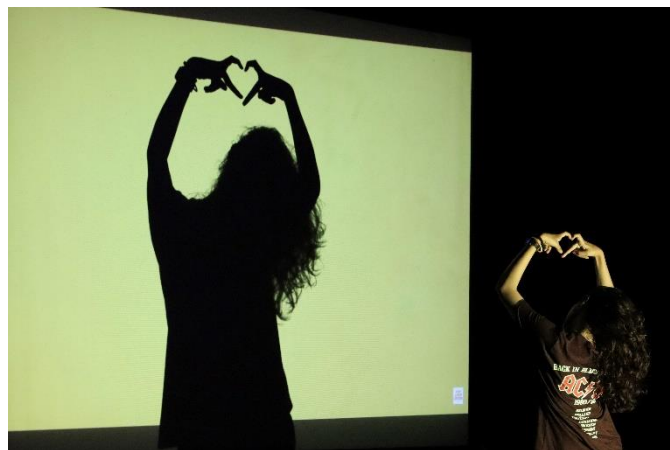

SPACE WEEK

5th October 2022 – 9th October 2022

The Astronomy Club teamed up with two clubs to have a collaboration with FLAME On Board and FLAME Photograpy Club for the first time to celebrate the World Space Week.

Students of FLAME were quite excited to show up to these events, which included a Movie Night screening *Interstellar*, a game night with fun astronomical games and teaching them concepts in relation to astronomy. We ended the week with a neon-themed dance night called the Big Bang, where people showed up dressed in black or white. We also sold food, such as Nachos, Pop-corn, and drinks. This was one of the biggest events of our club.

Star-Gazing

29th March 2023 at 11 pm

The Astronomy Club used the occasion planetary alignment for Star-Gazing.

It was a small event for everyone to star gaze and have a knowledge about constellations and stars. The session was taken by Vibhav, our Vice-President.

Meteor Shower Night

The Club planned to have a Geminid Meteor Shower Night, but was unsuccessful due to Semester ends and hence could not plan the event.
